...and more!

Q-Lase: Compact Power, Endless Possibilities

Unlock the next level of versatility in your practice with Qlase, the compact ND:YAG Q-switch laser engineered for results. With its modern, space-saving design and exceptional performance, Qlase is your all-in-one solution for a wide range of advanced skin treatments.

Dual Wavelength Technology:

532nm: Targets superficial pigment, perfect for treating colored tattoos and pigmented lesions.

1064nm: Penetrates deeper, ideal for dark tattoos, carbon facials, and permanent makeup removal.

Modern, Tabletop Design: Q-Lase fits seamlessly into any treatment room—no bulky equipment, just sleek, user-friendly technology that delivers professional results.

Q.Lase

Big Performance, Small Footprint—Backed by Supramedical

Versatile & Cost-Effective Q-Lase brings you the power and flexibility of our renowned Q-tek series in a compact, budget-friendly package. It's the smart choice for practices looking to expand their service menu without stretching their budget.

Why choose Q-Lase from Supramedical?

- **Reliable Quality:** Built with premium components for years of dependable use.

Personalized, Certified Training:

All our machines will include appropriate certified training to guarantee proper use, safety, and results. These trainings are available online or in person (at our training facilities).

This training is a comprehensive course covering every aspect of the operation of the machine, safety, maintenance, and legal forms. All the information will be provided electronically: follow-up material, videos and a lifetime VIP service line for any after-training doubts, treatment questions, faults, etc.
