FDA Cleared

EPILUM

Triple Wavelength Diode Laser:

- 755nm: Targets fine and light hair, perfect for precision.
- 808nm: The industry benchmark for versatility and consistent results.
- 1064nm: Delivers safe, deep treatments for darker skin tones.

The Compact Powerhouse for Laser Hair Removal

Step up your hair removal services with Epilum, the compact and highly effective 3-wavelength diode laser designed for fast, safe, and reliable results. Built for busy professionals, Epilum brings advanced technology and ease of use together in one sleek device.

Safe for Every Skin Type

Epilum's triple-wavelength system ensures effective hair removal for all Fitzpatrick skin types (I-VI), so you can confidently treat every client.

Ultra-Fast Treatments with FDP Mode

With FDP (Fast Delivey Pulse) mode, Epilum delivers rapid sessions—treat more clients in less time, without sacrificing comfort or safety.

EPILUM

Engineered for Excellence. Supported by Supramedical.

Built to Last

Proven Reliability: With nearly two decades in the industry, Supramedical is your trusted partner for advanced med-aesthetic solutions and ongoing support.

Testimonial

Elizabeth Ramón

Elizabeth Beauty and Wellness

"I've been thinking about growing my business for some time but hadn't come across an option that i trully felt comfortable enough with to actually invest the money until I bumped into Epilum while searching online.

I wanted to make sure i was doing a "smart investment" and now I'm really happy I actually took the time to look around and study all the opitions out there. So far, what i can say is that I ended up adding to my business a great machine that gets the job done fast and without complications and that didn't stretch my budget.

I'm happy and my customers are happy as well, you can call me a satisfied customer."

Personalized, Certified Training:

All our machines will include appropriate certified training to guarantee proper use, safety, and results. These trainings are available online or in person (at our training facilities).

This training is a comprehensive course covering every aspect of the operation of the machine, safety, maintenance, and legal forms. All the information will be provided electronically: follow-up material, videos and a lifetime VIP service line for any after-training doubts, treatment questions, faults, etc.
